

# QUALITY POLICY STATEMENT

Oilfield Solutions continuously:

- Focuses on customer requirements and expectations by providing outstanding levels of technical support and related services.
- Ensures uncompromising levels of quality in all aspects of technical training including employee training / competence, communications, documentation, management reviews processes, market competitiveness and Health Safety and Environmental compliance.
- Provides effective performance measurement, internal auditing and customer feedback systems in order to drive continual improvement and the development of enhanced customer services.

The management of Oilfield Solutions is committed to the achievement of quality objectives and to the effective deployment of resources for communicating, planning and executing the measures required for attainment of World Class standards.
